As we are globally expanding, we continuously search for talents and professionals who aim to grow with us and become a member of our award-winning team!

Position: Front-End / UI Developer

Reports to: Front-End Team Lead

Department: IT

Location: Limassol, Cyprus

Duties & Responsibilities

We are looking for a Front-End/ UI Developer who is motivated to combine the art of design with the art of programming. Responsibilities will include translation of the UI/UX design wireframes to actual code that will produce visual elements of the application. You will work with the UI/UX designer and bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works.

- Develop new user-facing interfaces and applications
- Build reusable code and libraries
- Ensure the technical feasibility of UI/UX designs
- Optimize application for maximum speed and scalability
- Assure that all user input is validated before submitting to back-end
- Collaborate with other team members and stakeholders

Qualifications

- Degree in Computer Science or related field.
- Experience with Angular 2+, preferably 6.
- Expert in JavaScript, in particular solid understanding of ES6.
- Good knowledge of HTML, CSS, Bootstrap and Material Design.
- Knowledge of a CSS preprocessor like Sass or LESS.
- Experience with Test Frameworks such as Jasmine, Mocha or Jest.
- Experience with version control systems (Git/SVN/Mercurial).
- Familiarity with queues would be considered an advantage.
- An eye for detail and a sense of visual coherence.
- Some experience in building REST APIs in node.js would be an advantage.
- Fluency in English Language.
